School is hard to focus on but I want to do well.

Goes to school, comes home, and has a hard time focusing on homework/studying.

education: High School

occupation: Cashier

marital status: Single

There never seems to be enough time in the day.

I graduated high school with a GPA of 4.0 ready to excel in college. However, many of my old habits from high school were not effective in this new environment. I attempted to study for my multitude of classes similarly to how I previously did in high school but this took up far too much of my time. I am having trouble creating a schedule that works for me.
